## AI USAGE DECLARATION

---

---

**Name: Rafi Ahamed**

**Student ID: 22241052**

**Assignment: 02**

**Date: 23/02/2026**

---

### 1. AI TOOLS USED

---

☐ None

☒ ChatGPT

☐ GitHub Copilot

☐ Google Gemini

☐ Claude

☐ Cursor

☐ Other: \_\_\_\_\_

---

### 2. PURPOSE OF AI USE (check all that apply)

---

☒ Learning/understanding concepts

☒ Debugging my code

☐ Generating code snippets

☐ Writing text content

☒ Design/styling ideas

☐ Image generation

☐ Other: \_\_\_\_\_

-----

### 3. DESCRIPTION OF AI USE

-----

**Briefly describe what you used AI for and how:** AI tools were used for guidance in understanding JavaScript concepts such as DOM manipulation, event handling, arrays, timing functions, and local storage. AI assisted in debugging errors, improving code structure, the design of the frontend and suggesting simpler implementations for the Fortune Generator, Stopwatch, and To-Do List tasks. All code was reviewed, modified, and understood before submission to ensure my learning about the concepts of javascript.

-----

### 4. AI-ASSISTED SECTIONS

-----

**List specific files/sections where AI helped significantly:**

- **File:** stopwatch.html      **Section:** inside the script tag to understand the concepts of stopwatch logic and designing the circle of the watch using css.
  
- **File:** to-do.js      **Section:** To understand the dom manipulation using js.

-----

### 5. DECLARATION

-----

**I declare that:**

**- This disclosure is complete and accurate**

- I understand all code in my submission
- I can explain and modify my work if asked
- I take full responsibility for my submission
